**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-4, 7-9 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "a bias voltage applied to the amplifier means for adjusting a current determining a noise level" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claims 5-6 and 10-11 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "wherein the amplifier means is turned on in both the first mode and second mode to provide a higher gain and lower noise figure in the first mode, and a lower gain and higher noise figure in the second mode" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Claims 12-17 are allowed over the prior art of record. The prior art of record considered individually or in combination, fails to fairly teach or suggest the claimed circuit/method comprising, among other limitations and unobvious limitations of "a mode selection means adapted to select the impedance of the feedback path and to select the bias voltage" structurally and functionally interconnected with other limitations in the manner as cited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hieu P. Nguyen whose telephone number is 571-272-8577. The examiner can normally be reached on M-F: 8 A.M - 5P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on 571-272-1769. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
